## OUR PRODUCTION CORE COMPETENCIES

### Low trade prices

We are in position to set our own trade prices as we fully control production and delivery costs which gives us a huge advantage over competitors.

### Safety and quality

We take quality and safety very seriously therefore we are constantly carrying out inspections throughout the entire process. We track and monitor every element prior, during and after production.

### On time delivery

Cut out the middle man and decrease delivery turnaround as we ship directly from our manufacturing site and warehouses eliminating all logistics issues.

### Testing

We measure and record the performance of all raw materials, adhesives, coatings and manufacturing settings. All materials are thoroughly checked and tested in our laboratories before going to production.

### Maximum flexibility

We are able to react to market changes and customer demands rapidly and apply new business processes instantaneously instead of having to contact 3rd parties and manufacturers on the other side of the world.

### Tailor made packaging

Bespoke packaging processes are implemented easily and quickly through our in house RnD department limiting error possibilities and time delays.

## CUSTOM PACKAGING BRAND YOUR PACKAGING

We offer all our customers the possibility to fully customize their packaging enabling them to increase brand awareness and maintain a strong and sustainable image. Our in house design team will work with you closely to help you get the customized design that promotes your business and your image. We offer a variety of custom packaging solutions from putting your own logo and design to our packaging (custom printing) to creating your own packaging that suits your business needs.

# ICONS

## OUR PRODUCT KEYS

### CERTIFIED PRODUCT

The packaging is ISO and HACCP certified ensuring consistent safety and quality.

### HOT CONTENT FRIENDLY

Can be used to carry and store hot food.

### RECYCABLE PACKAGING

Products can be recycled after use.

### CUSTOM PACKAGING

Custom branding /printing available.

### MICROWAVEABLE

The product is 100% safe for microwave use.

### MADE FROM RENEWABLE RESOURCES

Product is made from paper or cartonboard materials.

### WATERPROOF & GREASEPROOF

Product is entirely leakproof.

### TABLEWARE ALTERNATIVE

You may use knives and sharp cutlery to cut food right in the packaging.

# FEATURES YOU AND YOUR CUSTOMERS WILL LOVE!

*We produce sustainable packaging and we are the best at what we do!*

## GREASEPROOF & WATERPROOF

Entirely leak proof packaging ideal for liquid and moist food storage.

## MICROWAVEABLE

All our food containers are 100% safe and suitable for microwave use.

## ELEGANT

Exceptional look and design, surpassing European and Chinese analogs.

## RECYCLABLE

Produced from cardboard that can be recycled and reused to help reduce the consumption of fresh raw materials.

## CERTIFIED

All our packaging is produced in compliance with global environmental standards and is ISO and HACCP certified ensuring consistent safety and quality.

## ESSENTIAL

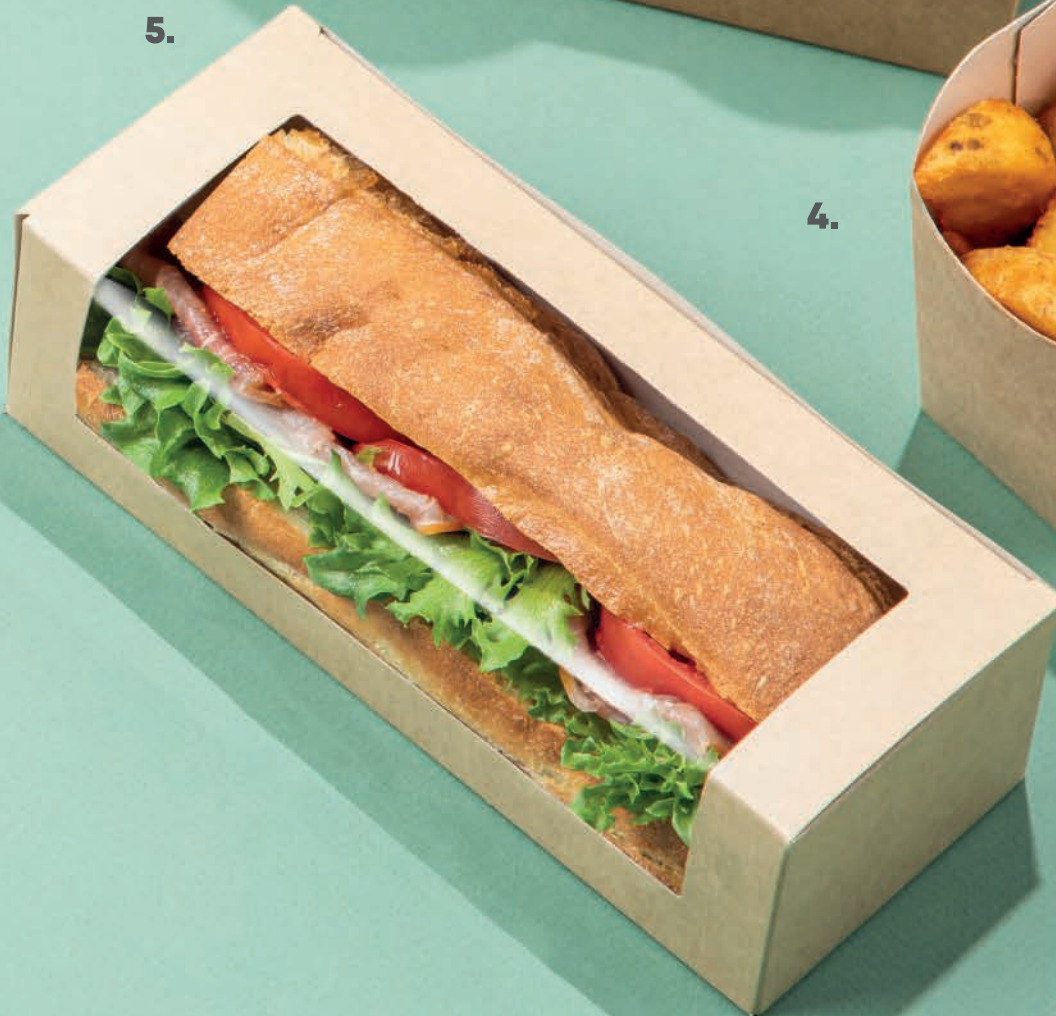

*ESSENTIAL is an environmentally friendly, stylish, and durable packaging line. It surpasses any plastic packaging in every respect. The packaging is an efficient assistant for food presentation and delivery, your product included. It is a really popular line in Russia and it is used frequently by companies in the Middle East, Asia, Europe, and the United States. The ESSENTIAL series consists of versatile-shaped cardboard made of two colors – the inside is white while the outside is kraft. Due to the high-quality lamination of the inner surface, the packaging is protected against moisture and grease.*

## SHOWCASE LINE

*The Showcase Line, as the name implies, is an environmentally friendly way of showcasing your products. The packaging features a transparent lid that favorably displays the contained products. The packaging can be bought as both flat and assembled depending on whether your business is looking to save space or speed up the work process respectively. It can come in diverse shapes and sizes, it's ultimately up to you. What's more, it can be used for food and non-food products. Most brands, for instance, use the Showcase line when shipping and storing handmade items.*
